***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

***Terminal Disclaimer***

The terminal disclaimer filed on 01/30/08 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patent granted from applications 10/737,425 in view of Gaffar et al (USP 5,032,386) has been reviewed and is accepted. The terminal disclaimer has been recorded.

***Allowable Subject Matter***

Applicants have amended the claims to ensure enablement to the instant method of enhancing protection of teeth against caries and cavities comprising suitable polymers which include the diphosphonate/acrylate polymers as disclosed in the instant specification.

Applicants have also pointed out that the polymers included in the present claims are distinct from the geminal diphosphonate-containing polymers of Degenhardt which are prepared by reacting phosphorous acid or a precursor thereof with a pre-prepared carboxyl polymer such as polyacrylate according to the method described in US 4,20705. The geminal diphosphonate compounds disclosed by Degenhardt are not prepared by polymerizing the present vinylphosphonate monomers with another monomer such as acrylate. The resulting polymers prepared according to the Degenhardt reaction scheme are structurally different from the present claimed

Art Unit: 1612

polymers. Additionally the present claimed benefit of increasing mineralization is not disclosed by Degenhardt.

**Claims 1-10 are allowable.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
